CAREER SUMMARY

To leverage my strong technical skills and knowledge in computer engineering to contribute to the development and implementation of innovative software solutions, while continuously expanding my expertise in emerging technologies and collaborating with cross-functional teams in a dynamic and challenging environment.

SKILLS

- **Complex Problem-Solving Skills:** Ability to identify complex problems, as an Agilist, I develop and evaluate options and implement solutions.
- **Technical Skills:** Proficient in Microsoft Office Suite (Word, Excel, PowerPoint and Google Suite).
- **Analytical Skills:** Ability to critique information into smaller categories in order to draw conclusions. I exhibit logical reasoning, critical thinking, sound communication, detailed research, data analysis and creativity.
